How Does The Super Scooper Help You?

The Super Scooper™ Horse Manure Removal System will save you valuable time that could be spent with the children, doing other work around the house, relaxing or even riding the horse.

Not only do you save time, but you also save your back and body. Anyone who has spent time cleaning up horse manure with a shovel and wheelbarrow knows how an easy afternoon can soon turn into a back-breaking day out in the summer heat.

At a reasonable price, the Super Scooper™ can be a great investment for you and your horses. By keeping the paddocks clean and manageable, you will save both time and worry in the long run.

Australia's Quickest Horse Manure Removal System

Have you ever spent your Saturday afternoon on the property with a spade and wheelbarrow cleaning up horse manure?

The Super Scooper™ is an Australian Invention that can make cleaning the paddocks a quick, easy and effective job.

Cleaning horse manure becomes a breeze with the innovative and easy design of the Super Scooper. With the ability to change from a scooper to a trailer to transport your manure in seconds, there is no quicker or more efficient Horse Manure Removal System available.

Horse Manure Removal in Five Easy Steps

STEP 1

Attach the Super Scooper to your 4 Wheel Motorbike or Ride On Mower, drive over the Horse Manure whilst scooping it up in the process.

STEP 3

Lift the Super Scooper, push the wheels up and around until they are under the Scooper. The Spring-Loaded Bolt can now be locked in.

STEP 5

Dump the Horse Manure from the Super Scooper in a suitable site. Wash the unit, and store ready for next time.

STEP 2

When full. Take the Super Scooper off your tow vehicle then pull the pin out of the draw bar. The bar can now be swapped to the other end of the Super Scooper, it's as simple as sliding the draw bar in and pushing in the pin.

STEP 4

Attach the drawbar to your vehicle, and you have a trailer to transport the waste to a suitable dumping site.

DONE!

The tough Galvanised Steel framework of the Super Scooper allows for years of scooping up Horse Manure from your paddocks.
